Following the official launch of the project WeGROW, our e-newsletter aims to keep you informed on developments and project news.

2nd Transnational Project Meeting in Vilnius, Lithuania

The WeGROW project partners were happy to finally meet in person for the second Transnational Project Meeting that took place in Vilnius, Lithuania. The consortium reflected on the completion of IO1: The WeGROW Methodological Guide and Toolkit in Emotional Intelligence and Social Skills for Youth Workers, and have coordinated on the execution of IO2: The WeGROW EQ Curriculum – A detailed programme and training materials for Youth Workers. The Curriculum will include 5 innovative training modules, plus an Emotional intelligence certification for Youth Workers.

Agreement number: 2020-3-CY02-KA205-001973
IO1 - WeGROW Methodological Guide and Toolkit in Emotional Intelligence and Social Skills for Youth Workers.

The first result of the project is composed by a Methodological Guide (Part A) and a Toolkit with energizers and ice-breaker activities (Part B).

The Methodological Guide is a theoretical tool that defines and describes a Coaching Methodology – both as a stand-alone resource and with a view to underpinning the development of the Curriculum and Training Materials.

The Toolkit will be used by Youth Workers for the empowerment of youth with low school performance, early drop-outs from school, and/ or NEET. The Guide includes a toolkit with non-formal tools such as icebreakers, games, and role-play scenarios for Youth Workers who are working with the youth target groups described above.
