Date of departure: 11/06/2022
Training dates: 06/06/2022 – 10/06/2022
As the new Erasmus+ and ESC programme have started, we felt the need to create a more structured approach on the development of future projects that will lead to a better and targeted cooperation in the field of youth employability with special reference to young people with fewer opportunities. Therefore, we developed the idea of the contact event YWYE, born to build the basis for subsequent collaborations aimed at improving the employability of young people, collaborations for innovation and exchange of best practices.

YWYE has been created to be a moment of **encounter, exchange and greater knowledge** and therefore a **support** to the establishment of innovative and forward-looking projects, more and more necessary considering how this period impacts on young people, organizations, systems and policies.
OBJECTIVES

The main objective is to support, promote and at the same time increase the capacity of youth organisations and the quality of projects through the construction of more complex initiatives between organizations working in the youth field.

The sub-objectives of the CME are:

- To increase the capacity to operate at an international level by bringing together partners with different skills, to expand collaborations and exchange of practices
- To enhance the capacity of partners to work with young people with fewer opportunities and NEET
- To explore the added value of the European dimension of youth initiatives related to employability and entrepreneurship
- To share and exchange good practices, materials and experiences to increase the quality and impact of youth projects
- To experiment innovative practices, adaptable to different contexts
- To learn and adopt new technologies to facilitate communication and exchange of materials.
