

Start a civil society organization at European level

About the project

Objectives:

The overall objective is to improve the European Society by supporting youth CSOs, while the specific one is to offer training aimed at the creation and management of CSOs. To do this, the project will develop a collaborative mentoring platform where to interact, share and consult information related to CSOs.

The target group will be young university students from any degree, but with personal plans to found and/or manage a CSO.

Results:

The main results of the project will be:

- Development of a MOOC on Creation and Management of a CSO.
- Development of a collaborative mentoring platform to promote the creation and management of CSOs.

Activities:

The project will develop the following activities:

- Four transnational meetings attended by a total of 48 people.
- One training course, attended by 30 people.
- Five local workshops, for an audience of 300 people in the five countries of the consortium.
- A MOOC on Creation and Management of a CSO.
- A collaborative mentoring platform to promote the creation and management of CSOs.

Development of the MOOC Platform.

Environmentally Friendly Practices at the Workplace

Work Package n°2 – MOOC on Creation and Management of a CSO

Activity 2: Design and development of the MOOC

Learning Outcomes

In the Course “Environmentally Friendly Practices at the Workplace”, the learners will learn the following:

- Empower their Organization to take a proactive approach to sustainability challenges and create innovative solutions to address them,
- Encourage collaboration among individuals, which can help create a shared sense of purpose and foster a culture of environmental-friendly practices,
- Promote innovation by encouraging creativity and assisting the Organization in acquiring a growth mentality,
- Develop an action plan that the Organization can use to put sustainable practices into practice and track progress towards its sustainability objectives.
