

Erasmus+ Project 2022-1-RO01-KA220-HED-000087012

„START A CIVIL SOCIETY ORGANIZATION AT EUROPEAN LEVEL CSO ADMIN”

Initiator and coordinator: „Dunarea de Jos" University of Galati

About the project:

The main objective of the project is to improve European societies by supporting youth civil society organizations (CSOs) and providing training on CSO creation and management. To achieve this goal, the project has developed an online course (MOOC) on CSO creation and management and a collaborative mentoring platform. Through this platform, students and graduates will stay in touch with trainers to receive

information and training on general management issues, such as marketing, organizational management, operations, funding search, and plan development—covering all information of interest to CSO management. Dissemination events will be organized in each partnership country to inform, train, and promote the project and its results.

Third transnational meeting- Zaragoza

During the 12th and 13th of March, the Third Transnational Meeting of the Erasmus+ CSO ADMIN Project took place in Zaragoza, Spain. This project is co-funded by the European Union and aims to improve European society by supporting youth NGOs through training focused on the creation and management of NGOs. To achieve this, the project is developing a collaborative mentoring platform where users can interact, share, and access information related to NGOs. The target group consists of young university students from any field, who have personal plans to establish and/or manage an NGO.

INNETICA hosted the event, which took place at the facilities provided by ESIC Business&Marketing School in Zaragoza. We greatly appreciate their collaboration and kindness. The consortium of this project consists of the following organizations, which were represented at the event: Dunarea de Jos University of Galati (Romania), Jaume I University of Castellón (Spain), Associação Portuguesa de Business Intelligence (Portugal), Akademia Humanistyczno-Ekonomiczna w Lodz (Poland), S.E.A.L Cyprus (Cyprus Organization For Sustainable Education And Active Learning), and INNETICA.

The main purpose of the meeting was to monitor and further develop Work Packages 2 and 3 of the project. During the various meetings, a review of the work done so far was conducted, and a roadmap was created for the successful completion of the next phases.

The project's platform is currently active, enabling young individuals interested in establishing a Civil Organization to register on the website: <https://mooc.csoproject.eu>.
